

DR. GUY DEYTON,  
D.D.S.

## Dr. Guy Deyton, D.D.S.

**W**hen you mention Dr. Guy Deyton in professional circles you hear words like respect, competence and leadership. During a career that includes both private practice and public service, he has received most every award or recognition that dentistry has to offer. Plaques and awards line the wall of his Kansas City North office recognizing him for honors such as 1994 Young Dentist of the Year and 1999 Missouri Dentist of the Year. But the recognition he is most proud of is an independently collected 2003 patient survey in which 99% of his surveyed patients rated their care as excellent.

After graduating from University of Missouri School of Dentistry and completing an advanced training post-graduate residency, Dr. Deyton established a private practice in Kansas City North in 1985. His practice currently maintains a focus on cosmetic and reconstructive dentistry. When asked why his patients felt so well cared for, he responded: "Patients have a right to respect, competency, and personal concern. Excellent healthcare doesn't have to be coldly clinical. We're simply very nice people who care about our patients. Being a professional means putting your patient's interest first and committing your-

self to continual learning. Our patients count on us being experts. We're experts at putting a smile on people's face."

In addition to being named Missouri Dentist of the Year by fellow dentists, Dr. Deyton has received many other honors:

- Fellow in the American College of Dentists. Dentists are nominated to the American College by their peers because of their high ethical standards and their contribution to their profession.
- Missouri Dental Board. In 1999, Dr. Deyton was appointed by the governor of the state agency which makes and enforces the rules for practicing dentistry in Missouri.
- President, Missouri Dental Association. Dr. Deyton is currently serving as president of the Missouri Dental Association representing approximately 2200 dentists with a common mission to provide the highest quality of care for the public.

Dr. Deyton is a member of the American Dental Association, American Academy of Cosmetic Dentistry, Academy of General Dentistry, American Equilibration Society (treatment of TMJ and bite problems). He maintains a private practice in Kansas City North and can be reached at 816.587.6444.
